iii. A high speed internet is required for other EMRs to communicate with Health Companion.

iv. If our licensees are healthcare providers who wish to participate in the CMM Electronic Health Record incentives program, it may be necessary to increase the resources to manage the program requirements.

v. A patient, as an individual may register in Health Companion to use the product as a personal health record (PHR). Use of Health Companion as a PHR by individuals (patients) is free of cost to the individuals. vi. EHR users should dedicate resources to monitor the interface between Health Companion and their EHR.

vi. Both providers and patients can obtain Direct addresses from Health Companion at additional cost.

B) Limitations that a user may encounter in the course of implementing and using this software include, but are not limited to the following:

i. The data available for patients in Health Companion is sent to us by your provider, entered by the patients or downloaded from other sources (i.e. devices) by the patients. Health Companion cannot vouch for the validity of data available in your personal health record.

ii. Interruption in internet service due to unforeseen circumstances.

iii. Occasional periods when Health Companion may be down or running slowly due to unforeseen technological problems.

iv. Occasional periods when Health Companion may be down or running slowly as a result of planned or unplanned maintenance and/or upgrades.

v. No other known contractual limitations are identified at this time.
