<b>Disclaimer</b>	
	This EHR Module is (2015) Edition compliant and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.
<p><b>Additional Types of Costs:</b> Additional costs that a user may be required to pay include, but are not limited to the following:</p> <ul style="list-style-type: none"> <li>i. Health Companion is a certified modular EHR for ambulatory and inpatient use. Since Health Companion focus is to assist other EHRs to meet their patient engagement requirements, Health Companion cannot be used as a standalone EHR by healthcare providers.</li> <li>ii. Health Companion should be interfaced with other EMRs to deliver patient engagement features to providers. Upon request, Health Companion will quote the cost of establishing such interfaces.</li> <li>iii. A high speed internet is required for other EMRs to communicate with Health Companion.</li> <li>iv. If our licensees are healthcare providers who wish to participate in federal programs, it may be necessary to increase the resources to manage the program requirements.</li> <li>v. A patient, as an individual may register in Health Companion to use the product as a personal health record (PHR). Use of Health Companion as a PHR by individuals (patients) is free of cost to the individuals.</li> <li>vi. HER users should dedicate resources to monitor the interface between Health Companion and their EHR.</li> <li>vi. Both providers and patients can obtain Direct addresses from Health Companion at additional cost.</li> </ul>	
<p><b>Contractual Limitations:</b> Limitations that a user may encounter in the course of implementing and using this software include, but are not limited to the following:</p> <ul style="list-style-type: none"> <li>i. The data available for patients in Health Companion is sent to us by your provider, entered by the patients or downloaded from other sources (i.e. devices) by the patients. Health Companion cannot vouch for the validity of data available in your personal health record.</li> <li>ii. Interruption in internet service due to unforeseen circumstances.</li> <li>iii. Occasional periods when Health Companion may be down or running slowly due to unforeseen technological problems.</li> <li>iv. Occasional periods when Health Companion may be down or running slowly as a result of planned or unplanned maintenance and/or upgrades.</li> <li>v. No other known contractual limitations are identified at this time.</li> </ul>	

**Technical Limitations:** Technical limitations that a user may encounter in the course of implementing and using this software include, but are not limited to the following:

- i. Health Companion services is dependent on the availability of internet connectivity. The services may be interrupted if internet connectivity is not available.
- ii. Health Companion is accessible through a wide range of devices and browsers. The software may not be compatible with certain devices or versions of browsers.
- iii. The data available in the mobile applications may not be current if cellular or Wi-Fi connectivity is not available between the mobile devices and Heath Companion servers.
- iv. No other known technical limitations are identified at this time.
